HOUSING QUESTION.

Alderman T. Kelly moved the adoption of a report of the Housing Committee, which, he said, was a digest, containing very valuable information on the case for immediate loans for housing in Dublin. It stated that the refusal of the Local Government Board to apply to the Treasury for housing loans to carry out improvement schemes re-opened the question as to whether or not there was a housing problem in Dublin. It was intolerable that the Local Government Board should not allow the Corporation to carry out any improvement scheme.

Mr. J. S. Kelly said it would be a bad day's work for the Council if they proceeded to override the selection of the ward.

Alderman McCarthy asked why should not the selection be left to the majority of the representatives of the ward?

The Lord Mayor said it would be a sorry thing if the choice of the burgesses of the ward was ignored.

Mr. Foley said the great fault of the Corporation was that it was out of touch with the great commercial people of the city. Now they had an opportunity of identifying themselves with the commercial classes. He hoped the Council would vote for the representative of the Chamber of Commerce.

Mr. O'Beirne asked how was it that these commercial men did not seek election in the wards?

Mr. Coulter—They would not be elected.

Mr. O'Beirne asked how was it that these commercial men did not seek election in the wards?

Mr. Coulter—They would not be elected.
Mr. R. O'Carroil said that Mr. Higgins' class—the publicans—were already well represented in the Council.

Mr. Cosgrave said he would vote for Mr. Booth, because he was convinced the businessmen of Dublin were not aware of the difficulties under which the Corporation laboured.

Neither did they understand the housing question as they should, and if their eyes could be opened to the true facts, by all means let them be welcomed to the Council (Hear, hear.)

Alderman Corrigan held the Council was bound by the suggestion thrown out on the occasion of the deputation by Alderman Kelly.

Mr. P. T. Daly said he doubted whether outside the few who selected him Mr. Higgins was known to one hundred people in the ward. On a division the voting was:—

The following account of a malch played en 27th February near the firing line in one of the theakes of war has been supplied by a member of the R.D.F.—The game proved very interesting and fast throughout. The forwards of both teams were evenly matched, but the Dublin backs combined better, thus establishing their superiority in the first half. Kee scored a try from a forward rush, and Brett (the old Irish International) converted nicely. Ten minutes later, Brett surprised everyone by dropping a beautiful goal from a very difficult position. Half-time score—Dublins, 9 pts., Munsters, Munsters, Munsters, Munsters and Munsters playing telter together, but they were unable to peace try for the Dublins defence. Bayley scored a positive for the Dublins defence. Bayley scored a positive for the Dublins, but failed to convert.

HUNTING. HUNTING APPOINTMENTS.

THE MEATH.

On Friday the meet was at Somerville, when hounds found serveral foxes in Knockcommagh Weod, and hunted them for nearly two boars, all round the district, seens crentually failing. They killed one in Staffordstown gorse, hunting another through the woodlands into Brownstown, when a nice run towards Hayes and back over a narrow bank country, without much grief, finished. A gailop from Harristown gorse, into Hayes, and left-handed again to the covert ended the day. Saturday was very warm, and a fair sized field foregathered at Clifton Lodge. Seent was bad when hounds opened in Trimiestown. They hunted past the golf links and Mr. Kennedy's house, marking to ground near it. Short runs from Camarking with blanks at Rathmore, Bairath ceverts, and Rockfield.

Government's measures may be an outcome of the Allies' Conference in Paris. It is officially stated that there is no development between Great Britain or her Allies and the Dutch Government to account for the rumours circulated in Holland on Sunday. Not only is there no truth in the fantastic report—obviously Speaking on Sunday at a luncheon given in his honour by Signor Salandra, Italian Premier, Mr. Asquith traced the origin of Parliamentary government, and referred to the many and close ties of friendship which bind Italy and England. He emphasised the unity of both countries in their aims and the need of co-operation between the Allies with a view to final victory. On his departure from Rome on Sunday night Mr. Asquith was the subject of a most enthusiastic demonstration.

The sudden stoppage of the railway services is apt to cause great delay to those living in the outer suburbs, and many people have had to walk more miles in a night than they usually do in the course of a week. This inconvenience, like many others due, to the war, has its bright side. Suddents deposited at statuous a long way from home last night. I was offered a lift by a motor owner. (1) There is annually a sum of more than £3,500,000 going out of this country in the purchase of foreign-made tyres.

(2) There is an ample supply of British built tyres to meet all legitimate demands without the importation of a single foreign tyre.

(3) Foreign tyres, on account of their bulk, occupy an appreciable amount of valuable space and thus accentuate the existing shortage of shipping.

FOREIGN BONDS QUIET.

In the Foreign market there was little going on. Among Continental descriptions, Russians were dull. Tintos rose to 62 on Paris advices. Greek Fives of 1884 were down at 52½, and the Funding Loan at 50. It was reported that the Greek Government was negotiating a six-million loan to tide over the existing financial crisis. Hungarian Rentes were up to 45½, but were nominal. Other enemy issues were idle. Japanese Bonds recorded ½ to ½ in places, but Chinese issues were inclined to harden. Argentine and Brazilian Bonds marked some narrow irregular changes. Brazilian Funding Fives fell ½ to 75½. Uruguay 3½ p.c.'s were unchanged. 283,000 has been remitted for the service of the debt out of the Uruguayan Custom duties for the latter fortuight of March.

HOME RAILS EASIER.

The Home Railway market had quite lost its recent position of prominence. The market was dull to-day, with no signs of sustained briskness, except in the case of one or two leading Heavies. 5% Exchequer Bonds.

To the Directors **Business Firms.**

"A Directorship never carried such a privilege as this to help the Country in its hour of need."

> THE WAR will be won by man power and money power. Business firms have helped toward furnishing man power by liberating their staff and workmen to fight and by assisting their dependents.

They are now asked to help to give their country money power.

Companies have reserve funds which they will want for extension of business after the War. The Government asks them to lend their country that money to-day to carry on the War.

The more money the Government gets the quicker the War will be forced to a successful issue.

The Government asks the money for five years and offers 5 % interest. The security is the Consolidated Fund of the United Kingdom.

On the 1st December, 1920, all the money lent will be repaid in full. There will be no depreciation to write off in the Company's balance sheet.

The 5-year Exchequer Bonds at 5 % are the safest investment for reserve funds. These Bonds carry a high rate of interest; they can always be turned into cash, and the full return of the money is guaranteed at a given date.

A Directorship never carried such a privilege as this—to help the Country

Will Directors call a special Directors' Meeting, so as to make the investment with the least possible delay?
